PROFESSIONAL SUMMARY

Backend Developer with 1 year of hands-on experience engineering scalable web applications using PHP (Laravel), PostgreSQL, and MySQL. Core expertise in designing relational database schemas, building secure RESTful APIs, and implementing clean MVC architecture. Supported by a solid full-stack foundation across React.js and Node.js with a strong commitment to shipping zero-defect, production-ready code.

TECHNICAL SKILLS

Languages: PHP, Core Java, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: Laravel, Node.js, React.js

Databases & Storage: PostgreSQL, MySQL

Developer Tools & QA: Git, GitHub, Postman, Jenkins, Eclipse, VS Code, RESTful API Design, Manual QA Testing

PROFESSIONAL EXPERIENCE

Backend Developer | Cloud Revel Innovations

Aug 2025 – Present

- Architected, tested, and maintained backend micro-services and secure REST APIs across 4 production projects using PHP (Laravel), PostgreSQL, and MySQL.
- Implemented robust authentication, role-based authorization (RBAC), and CRUD business logic strictly following Laravel's Service-Repository and MVC patterns.
- Collaborated closely with frontend engineers to integrate API contracts and ensure seamless full-stack data flow.
- Executed rigorous API and integration testing, resulting in a minimal bug count record and zero critical defects in production releases.

FEATURED PROJECTS

CodeBricks — <https://code-bricks.vercel.app>

- Built a developer platform hosting 500+ customizable HTML/CSS/JS components across 20+ functional categories.
- Developed a high-performance REST API backend in Laravel leveraging Service-Repository design patterns to separate business logic from data layers.
- Integrated a dynamic, searchable frontend catalog using React, Vite, and modern CSS architecture.

StayFlow — <https://stayflow-qcj0.onrender.com/>

- Engineered an end-to-end property operations platform with dedicated role-based dashboards for property owners and tenants.
- Built automated rent invoicing, expense tracking, maintenance ticketing, and broadcast notification workflows using Laravel and MySQL.
- Integrated a responsive React client with authenticated REST APIs for real-time lease and dues management.

SmartQueue — <https://smartqueue-vb0e.onrender.com>

- Developed a full-stack real-time token tracking platform engineered to eliminate physical wait queues for hospitals, clinics, and banks.
- Designed 3 isolated dashboards (Customer, Staff, and Administrator) with real-time status updates using React, Node.js/Express, and PostgreSQL.
- Structured relational tables to handle high-concurrency token issuance and live counter routing without data collisions.

CERTIFICATIONS

Java Full Stack Development — Certificate of Completion (Covered Core Java, J2EE, SQL, Web Technology, and Frameworks)

EDUCATION

Bachelor of Computer Applications (BCA) | CGPA: 7.75 | 2021 – 2024

Govindammal Aditanar College, Tiruchendur

Higher Secondary Certificate (HSC) | 73% | 2021

Sri Kanchi Sankara Bagavathi Vidyalaya Matric Hr. Sec. School

Secondary School Leaving Certificate (SSLC) | 88% | 2019

Sri Kanchi Sankara Bagavathi Vidyalaya Matric Hr. Sec. School
